Moon Landing 2014 World Tour

Friday November 7th 2014 | 8:30 pm | Sporting Monte-Carlo

James Blunt will make a stop in Monaco during his « Moon Landing 2014 World Tour », on Friday November 7th 2014, for what will be his only South of France date. On the Salle des Etoiles stage, during a sit down concert, he will perform his most loved hits along with new songs from his fourth and latest album: « Moon Landing ».

Critically acclaimed as a « back to basics », the first single, *Bonfire Heart*, was widely broadcast around the world. About his new album, Blunt says: « it's a much more personal album, we are rediscovering where it all started and where we are now. This is the album I would have recorded if « Back to Bedlam » had not sold well. »

Finally, the artist states: "I'm very excited that my group and I are back on the road to play these new songs live, along with some of our hits. My fans have never let me down and I enjoy nothing more than playing for them. They have been so supportive over the years.»

James Blunt « Moon Landing 2014 World Tour » for an exceptional concert on Friday November 7th 2014 at the Sporting Monte-Carlo, a date to mark in your calendars!
