MONTE-CARLO  
SOCIÉTÉ DES BAINS DE MER

Living the good life at the Monte-Carlo Beach Relais & Châteaux,  
open for the season on March 6<sup>th</sup> 2015

The Monte-Carlo Beach, one of the jewels of the Société des Bains de Mer, has announced that it will open for the season on March 6<sup>th</sup>. Excellence, luxury, exquisite wellness and enjoyment are all on the programme this season, where nature and culture are always the stars of the show and "living the good life" is our motto.

A member of the Relais & Châteaux network, since its renovation by the famous interior designer India Madhavi, this 5-star hotel has 14 suites and 26 rooms with a superb view of the Mediterranean. Guests of the Monte-Carlo Beach benefit from a personalised approach and exceptional services, revelling in the richness of experience for maximum enjoyment.

By opening its doors the first weekend in March, the Monte-Carlo Beach marks the return of balmy weather by welcoming guests to enjoy the first rays of the season around the legendary Olympic-sized pool or on the terrace under the legendary pine trees offering delicious shade. It's no wonder that season after season; defined clients seek out the elegance and comfort of the Beach.

Despite the many different trends and movements that have characterised the years since the 1930s, the Monte-Carlo Beach has stood strong, promoting the Riviera way of life and increasingly taking steps to help protect the environment.

Experiencing the Beach also means experiencing its local, 100% organic cuisine. The Monte-Carlo Beach Relais & Châteaux has its own Green Globe certified charter. These guidelines highlight many certifications and actions in environmental management, which can be summed up in its main programme, "*Beach goes Bio!*" Once again this year, Michelin-starred Chef Paolo Sari has designed a menu with dishes that respect nature and the Mediterranean environment. An advocate of healthy eating practices, Paolo Sari combines high flavour

standards with his knowledge of wellness and a deep appreciation of the art of living and enjoyment. The Michelin-starred restaurant Elsa is an emblem of this extraordinary philosophy and home to this remarkable chef's beautiful organic cuisine.
