

MONTE-CARLO
SOCIÉTÉ DES BAINS DE MER

In agreement with Gérard Drouot Productions

presents

KING CRIMSON

**Thursday 17th and Friday 18th November 2016
at the Opéra Garnier Monte-Carlo**

King Crimson, a band which formed in 1969, is considered one of the most emblematic and influential progressive rock bands. The latest formation is very different to all the others the group has undergone, with Robert Fripp on the guitar, Tony Levin on the bass, Mel Collins on the saxophone, Jakko Jakszyk on the guitar and singing, and not one but three drummers (Gavin Harrison, Bill Rieflin et Pat Mastelotto)!

Their latest album, "Live At The Orpheum", released in early 2015, was recorded on their previous American tour and gives a glimpse of this incredible new line-up. Fans who have been waiting for a new album since "The Power To Believe", released in 2003, will be delighted!

Following successful tours in the United States in 2014 and in Europe in 2015, King Crimson is back and will be performing at Monaco on 17th and 18th November at the mythical Opéra Garnier Monte-Carlo for two event concerts!
