**The myBlend by Clarins revolution  
will be at Thermes Marins Monte-Carlo  
from 18 May to 4 September 2022**

With more than one hundred and fifty years of expertise in health and well-being, Thermes Marins Monte-Carlo will host the pop-up myBlend spa from 18 May to 4 September. It is the opportunity to discover the myBlend brand that has been entirely redesigned in 2022 under the impetus of Dr Olivier Courtin.

**A HAVEN OF LUXURY DEDICATED TO WELLNESS, BEAUTY AND PERFORMANCE.**

Linked by direct access to Hôtel Hermitage Monte-Carlo and Hôtel de Paris Monte-Carlo, perched between the sky and the sea, Thermes Marins Monte-Carlo combines innovation and know-how with 6,600m<sup>2</sup> dedicated to wellness, fitness and preventive health. An exceptional location in the heart of Monaco facing the Mediterranean for a luxurious and healthy break. Thermes Marins Monte-Carlo is equipped with the latest perfected equipment, and relies on a team of experts: therapists, nutritionist, health and sports coaches... to define personalised treatments and protocols in relation to the goals and characteristics of each guest.

From the heated pool, the view overlooking the sea is quite simply sublime, as is that from the solarium facing the Port and the Rock. The establishment also has a healthy gourmet restaurant, l'Hirondelle, where the chef offers tasty menus that are a blend of Mediterranean gastronomy and nutrition. Everything here is dedicated to well-being.

**THE ENCOUNTER BETWEEN MYBLEND & LES THERMES MARINS MONTE-CARLO: A DIFFERENT CONCEPT OF BEAUTY AND LUXURY**

A pioneering and innovative brand from the Clarins group launched in 2007, myBlend is reinventing itself in 2022 under the impetus of Dr Olivier Courtin. Personalised treatments are at the heart of the new MyBlend concept. This approach is made possible by the new skin diagnostic mySkinDiag, that offers tailor-made mapping of the skin concerns of each guest to deliver the appropriate solutions. To take care of your skin in an overall way, myBlend combines 3 forces: cosmetic treatments, LED mask and nutritional complements designed by Dr Olivier Courtin and developed in collaboration with a group of experts recognised for their excellence, in order to guarantee the highest level of effectiveness and skin and body sensitivity. Each of the products has been formulated with the highest effective concentration in active ingredients, in nutrients, and in light. Researched to ensure optimal skin tolerance, the Derma and Nutri formulas are made using respectful and non-controversial ingredients, while the LED Mask favours non-invasive technology. The brand signature clearly emerges - highly effective and respectful of the skin and body, as well as the environment. More information – [myBlend Press Pack](#)
