

Monte-Carlo Société des Bains de Mer and Be Safe Monaco Renew their partnership for the third consecutive year

News Flash - Monaco, July 23, 2026 – Stéphane Valeri, Chairman and Chief Executive Officer of Monte-Carlo Société des Bains de Mer, and Ms. Camille Gottlieb, President of Be Safe Monaco, have renewed the partnership that has united the Group and the Association since 2024. Renewed for the third consecutive year, this agreement provides for Monte-Carlo Société des Bains de Mer drivers to operate the Be Safe Monaco night shuttles and safely drive home, in Monaco, customers of the Principality's establishments throughout the summer season.

Once again this year, the Monte-Carlo Société des Bains de Mer Group is giving its full support to the Be Safe Monaco association, founded in 2017, which works to combat drink-driving. In view of the success achieved since this partnership was established in 2024, it was only natural that the agreement should be renewed this year, with the signatures of Stéphane Valeri, Chairman and Chief Executive Officer of Monte-Carlo Société des Bains de Mer, and Ms. Camille Gottlieb, President of Be Safe Monaco.

Since 1st July, and until next August 31, Monte-Carlo Société des Bains de Mer drivers are once again being made available to the association, on a rotating basis, to operate the electric shuttles that safely drive customers of Monaco's nightlife venues home, in the Principality.

This completely free service is available from Wednesday through Sunday inclusive, from midnight to 5:30 a.m.

Since this partnership was signed in April 2024, 741 people (355 in 2024 and 386 in 2025) have been driven home thanks to Monte-Carlo Société des Bains de Mer drivers being made available during the summer season.
